Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 27-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

For example, from the applicant's language recited in Claim 27, it is unclear whether the applicant is claiming the combination of a "vending machine" and a "note acceptor-dispenser" or the subcombination of the "note acceptor-dispenser" only. For example, in the preamble it is clear that a "vending machine" is being claimed alone. However, in lines 3-11 of Claim 27, for example, the "note acceptor-dispenser" is being positively recited thus rendering it unclear as to whether or not combination of a "vending machine" and "note processing, dispensing and change device" or subcombination of "vending machine" alone is being claimed.

For the purposes of this application the following action is directed toward the subcombination of a "vacuum duct" only.

2. Claim 28 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 5, it is unclear whether the transportation unit is for dispensing notes from the storage area or the storage area is for dispensing notes from the note storage area. It is suggested that the word "and" be inserted after "storage area", first recitation, and the word "and" be placed at the end of line 3.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 26-30 are rejected under 35 U.S.C. 102(e) as being anticipated by Katou et al (US 2004/0182677 A1).

Katou discloses a vending machine in the form of automated teller machine (101), a note acceptor-dispenser (1), a note validator (30), a note box (60), a note hopper (40) that temporarily stores said notes, and a transportation unit (501, 502, 503, 504). See figures 3 and 6-13, 23-26, 30a-30c and 31.
